

Engineering Technician I

Seasonal Temporary position: 32 hrs. /week, flexible schedule for qualified candidates.

The County of Warren, EOE, is seeking an **Engineering Technician I.**

Minimum Qualifications:

Graduation from high school or possession of a high school equivalency diploma and:

- a. Thirty credits from a NY State or regionally accredited college leading to a degree in Engineering Technology or related math, science or construction field; or
- b. One year of acceptable experience in the engineering, math, science or construction field; or
- c. Any equivalent combination of experience and training.

NOTE: A valid license to operate a motor vehicle in New York State is required.

Abbreviated Duties: This position involves working closely with engineers, contractors and highway foremen in the performance of technical duties associated with engineering projects. The work involves taking measurements, checking computations, collecting and compiling data, making simple calculations, performing inspections, ensuring construction activities are in compliance with design plans and specifications; computer-aided drafting, and related general clerical duties as required. The position works under the supervision and at the direction of engineers.

CANDIDATES SHOULD SEND RESUME AND LETTER OF INTENT TO:

Warren County Department of Public Works
Jeffery Tennyson, P.E.,
4028 Main Street, Warrensburg, NY 12885
518-623-4141

APPLICATIONS ARE BEING ACCEPTED UNTIL POSITION IS FILLED.
